

## Sprint 3 Report

Product Name: Life Reminders

Team Name: Off By One

Sprint Finish Date: 3/10/2015

### **Actions to stop doing:**

- Talking while another team member is discussing on their progress during Scrum meetings
- Cancel Scrum Meetings (though the one cancelled scrum meeting was due to strike)

### **Actions to start doing:**

- Update the scrum board/burnup chart more frequently.
- Update the physical scrum board more

### **Actions to keep doing:**

- Using Hangouts and Issue tracker to communicate
- Holding the SCRUM meetings as its usual time
- Follow good software design principles.
- Practicing the stand up short SCRUM meetings
- Committing (often) working code to GitHub
- Communication between teammates to ensure nothing is broken
- Update the Scrum Board
- Communicate better

### **Work Completed:**

- Add button to lifestyle and reminder activity
- Use storage to add reminder/notification to selected lifestyle/reminder
- Create lifestyle page
- Create Reminder Page
- Create Notification page
- Allow the AlarmReceiver to know what time the alarm is supposed to go off
- Save changes made to selected lifestyle/reminder/notification/action
- Pull notification from storage
- Implement a delete function in Storage class
- Push active notification, according to its settings (sound and vibration) on startup
- Store the settings, so the system remembers them

### **Work Not Completed:**

- (None based on planned sprint work)

### **Work Completion Rate:** On Par (Almost completed)

- Completed of all tasks schedule for sprint
- 12 of the 12 tasks from the sprint were complete, with 5 of the 5 user stories completed and 0 user story with 5 tasks remaining in them.

- Additional tasks are added in outside of the sprint plan into Github's issue tracker.
