Product Name: Life Reminders
Team Name: Off By One
Sprint Completion Date: 1/31/2015
Revision Number: 0
Revision Date: 1/20/2015

Goal: Get the basic app and simple functionality working with the app. Be able to add and remove reminders, and be notified at the correct times that you set.
Format: *(story point + MoSCoW rating) (user story)*

Task Listing, Organized By User Story, User Stories are in priority order:
- User Story 1: (8M) As a developer, I need info and access to the Google alarm process library to wake a small process of the app to initiate the reminder
  - Research how to use Google Alarm Process
  - Implement alarm in Notification class
  - Store alarms/notifications
  - Add alarms/notifications
  - Delete alarms/notifications
- User Story 2: (5M) As a developer, I need info and access about setting notifications in Android notification bar.
  - Research how to set notifications
  - Implement notification inside of Notification class
  - Implement Notification class inside of event launched by Google Alarm Process
- User Story 3: (13M) As a developer, I need to store reminders so that I can use reminders later.
  - Create storage class to easily store key pair information
  - Create Lifestyle class that stores a collection of reminders
  - Save the Lifestyle (collection of reminders)
  - Implement Unsorted Lifestyle in main activity

Team Roles:
- Jayden Navarro : Product Owner
- Kevin Cheng : Scrum Master for Sprint 1
- John Gemignani : Team Member
- Alex Gonzalez : Team Member
